

God Bless the USA is a Waste Connections, Inc. company and is excited to partner with the Town of Indian Trail and becoming its Solid Waste and Recycling services provider effective July 31, 2017. Waste Connections is the third largest solid waste and recycling services provider in the country. In North Carolina we own and operate facilities in Charlotte, Monroe and Polkton, which provide services to the surrounding communities including Indian Trail. These facilities employ and are operated by people local in these and the surrounding communities. The Monroe facility, which will be the base of operations for Indian Trail, operates one of the largest Compressed Natural Gas (CNG) fleet of vehicles in the area. The Town of Indian Trail will be serviced by a new fleet of CNG vehicles.

Enclosed you will find a 2017-18 Calendar/Waste Collection magnet courtesy of GB USA in collaboration with The Town of Indian Trail. This magnet is a convenient reference tool to place on your refrigerator or in another easily-accessible location.

GB USA provides collection of bulk items every quarter. You will find these dates outlined in black on your magnet. Bulk items such as furniture and appliances may be placed on the curb for pick up on these days. Please be aware that loose bags of household refuse will not be taken on your bulk pick up days.

You will also find the holiday pick-up schedule highlighted in black on your magnet. The following holidays are observed by God Bless the USA (please note that waste collection will be delayed one day following an observed holiday).

- Thanksgiving
- Christmas
- New Years Day

For additional information please refer to www.indiantrail.org/DocumentCenter/Home/View/845 or call our office directly at (704)708-5872

Sincerely,

God Bless the USA
A Waste Connections Inc. Company
